Objective

Motivated and detail-oriented fresher with a strong foundation in Python programming, front-end technologies, and database management. Passionate about developing efficient, scalable, and user-friendly web applications. Seeking a challenging role as a Full Stack Python Developer to contribute technical skills and grow professionally in a dynamic development environment.

Skills

Languages	:- Python, SQL
Framework	:- Django
Database	:- SQL Server
UI Tools	:- HTML, CSS, JavaScript
Package	:- MS Office
Operating System	:- Windows

Projects

- E-commerce Website
  Backend: Django for handling the logic, user authentication, and database models.
  Frontend: ReactJS for dynamic UI components.
  Description: Create an e-commerce platform where users can browse products, add them to their cart, and make payments. Include an admin panel for managing products, orders, and users.
- Real-Time Chat Application
  Backend: Flask/Django with WebSocket or Socket.IO for real-time communication.
  Frontend: ReactJS/HTML5, CSS for UI design.
  Description: Build a real-time messaging application where users can send messages, create chat rooms, and view online users. Implement chat history and private messaging.
- Personal Finance Management Tool
  Backend: Django or Flask for handling transactions, budgets, and financial reports.
  Frontend: ReactJS for data visualization (charts, graphs).
  Description: Build a financial management tool where users can track income, expenses, set budgets, and generate financial reports. Include authentication and data security.
- Rural Bank Management
  A Rural Bank Management System built using Python streamlines banking operations for rural areas. It manages accounts, customer details, deposits, withdrawals, and loans efficiently. Features include user authentication, transaction tracking, balance inquiries, and generating account statements. Designed for simplicity, the system ensures secure data handling, promoting financial inclusivity by catering to rural banking needs with an easy-to-use interface.

Education

Course / Degree	School / University	Grade / Score	Year
BSC Computers	Acharya Nagarjuna University	85%	2024

INTERNSHIP

- I have completed my Web Development Intern from congifyz technologies from November 2024 to December 2024 with a completion certificate
- I have done an internship on Rural Bank Management from February 2024 to April 2024 as a college main project

Achievements & Awards

- Awarded 1st prize in Essay writing held by chirala Rotary club.
- I perform as a participant in Swachha Bharat program which was held in our institute.
- Organized technical symposium in college.
- I am a top 3 student among all the class.

STRENGTHS

- Quick learner
- Problem solving
- Time management
- Team organizing

Interests

- Community involvement
- Listening to music

Languages

- English
- Telugu

DECLARATION & SIGN
